## ARTIFICIAL'S TOURNAMENT ALL SPECIES SEMINAR

### ARTIFICIAL'S TOURNAMENT

A very good turnout for the Tournament, which produced a few photos of some of the Club Boats but only a few fish. Most of the boats gathered up at 3-Arch, especially each day after Dan U. would announce that everyone on the "DIRTY DEEDS" was constantly catching fish there. I think this was a good example of angling ability and not location or type of lure. Although I did catch a small BSB after Dan U. gave me a lure to try, but that was it. There were several different techniques being used such as "ball bouncing" by "PIRASEA" and "SALSIPUEDES" but all without success. However, last year's Angler of the Year, Rodger Healy, who was fishing away from the crowd, did manage to catch a few and knock me from Third Place.

## “All Species Seminar Summary”

By Rick Fuller

A big thanks from the club goes out to Jim Kingsmill for volunteering to share his fishing knowledge with club members in an open exchange session prior to the all species tournament. The session took place on April 1 and was well attended. Those present enjoyed one of the most informative evenings that I personally have ever experienced. Subjects covered included, protective clothing, knot applications and tying, best fishing spots for specific species along the coast, preferred fishing times and conditions, tackle suggestions, fishing techniques for specific species, bait pump types and installations, and even chumming techniques. Jimmy will be back for an encore in early July and will share Marlin tactics with us. Don't miss out.

## HEARD ON THE DOCKS

- With Randy in the UK for the month, very little was heard.
- Rich and Mike could only fish for a short time on the “LITTLE SOUND INVESTMENT” because the cooler only holds a 6-pac.
- With Bob coaching and Zac playing, the “TUNACIOUS” is seeing less fishing.
- “We just culled another.” Was the constant radio chatter from the “DIRTY DEEDS” during the “Artificial’s Tournament”
- There is a “50-50” chance that Bill Waters’s auto-pilot will direct him in circles.

## FISHING

There has been very little action with the winds and cold water still with us until the “WILD BILL” scored on the WSB with all three aboard getting one; Jim, Bill and Brian, a former Member. Before the WSB catch there were a few bonito, sand bass and one halibut, not a whole lot to cheer about. There is still plenty of time left in the “All Species Tournament” so get out and start sending in those weight slips.
